Signup and login functionality

This website incorporates 3 types of users namely Job seekers, recruiters, and admin

The **admin** refers to the website's admin. In case of any issues with the website, feel free to contact the admin via the company's email id [provided in the contact us section of the home page].

The **recruiter** refers to companies/individuals who are looking to hire people and have vacancies for a particular position. In order to maintain integrity of the website all recruiters need to be verified by the admin and will be provided access after they have been verified.

The **job seekers** refer to people who are looking for a job

Hope this info helps you decide the type of account the is to be created for your need :)

Job seekers

- Job seekers will be able to view the job postings that have been put up by the recruiters
- To make it easier for users to find what fits their needs the best, Implicit Consulting Inc. provides features to search and sort the job postings based on various parameters such as skill requirement, position name, location etc
- Users will be able to apply for the job posting upon viewing the details of the post and clicking on apply. They will be able to upload their resume after which the recruiter will be able to contact them as per their convenience.
- Upon clicking the 'My applications' tab from the navigation bar, users will be able to view the status of all the posts that they've applied for.

Recruiters

- As mentioned earlier, recruiters will have to wait for the admin to verify them before being able to carry out the operations listed below.
- Recruiters can put up job postings by clicking on the create job posting tab from the navigation bar after logging in. It allows recruiters to specify the title of job position, apply by date [after which the post will no longer be visible to job seekers], job description as in the responsibilities of that role, the required skills for that role and keywords to help users search efficiently.
- There is a checkbox labeled 'close' which can be used if the position has been filled before the deadline.
- Recruiters who have put up the post will be able to update all the above listed parameters as well as delete the post.
- Recruiters who have put up a post will be able to view all the applications corresponding to that post which includes the details of the applicant as well as the resume submitted by them.

Users will be able to view their profile as well as update it from the 'profile' tab in the nav bar. Password reset will be carried out via email.
